

Liepaja - partnership understanding

NOTE: The exercise is aimed at established pairs/partnerships
examples
actual sync for the pairs

Rank in what kind of situations you lose points.

- Players contribute

Bid too high

Bid too low

Leads

Misguesses in play

Misguesses in defence

Misplay

Misdefence

Bidding disagreements /misunderstanding (or forgotten method)

Different opinion judging hand value

- Conclusion hopefully Bidding disagreement

Purpose of this lecture is to synchronize within pair

Examples of exercise (on whiteboard)

Brief overview

Separate partners physically in room

Prepared exercise – copies to each player

Players interpret separately bid situations

Partners reunite

and compare within the pair their answers

- There is no arguing or evaluation what is a better method or bid

The right answer is the one partner gave

Count and enjoy your right answers

Discuss outcome briefly – good or not quite so good results

Liepaja - partnership understanding

NEXT To make life of coach easier....

Pairs produce exercise problems.

Each pair suggests on paper a bidding situation where the last bid should be "difficult".

Separate partners physically in room

All situations are listed on the wall (whiteboard)

Each player writes his interpretation of the bidding situations **created by the other pairs.**

Partners reunite

Partners compare their answers within the pair.

Take one point for each "right" (same) answer.

For a wrong answer, give one point to the creator.

Find out who won.

Give them an applause.
